

To the FDA:

FIRST DO NO HARM.

WHAT ABOUT OLESTRA -  
WE BOTH KNOW IT REMOVES

I send this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999. <sup>essential vitamins FROM</sup>

<sup>you are letting peer pressure get the best of you</sup>  
The Memorandum of Understanding is a direct threat to the art of pharmacy <sup>the doctor if it harms</sup> compounding and is of concern to every consumer of healthcare services and products. The FDA is an agency of the U.S. Government that purports to be the "watchdog" for the consumer. However, as a governmental agency, the FDA also has a responsibility to be accountable to the people. <sup>WHAT goes around comes around</sup>

The MOU must be amended! !! In its present form, the MOU severely restricts <sup>stand</sup> my rights as an individual to obtain the healthcare services and products from the provider of my choice. The MOU should be amended so that there are no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel.

<sup>WHY should you care?</sup>  
DO YOU WANT YOUR CHOICES TAKEN AWAY -

Signed: Constantine Callata

State of Residence: Georgia
